

WORLD TEACHERS' DAY 2021

Some of the many words that describe
our dedicated teacher members
We thank you for your resilience...

We probably don't need to remind you of all the challenges throughout 2021 but we do want to recognise your resilience in coping whilst keeping your students focused and learning throughout it all.

You have had to adapt so much, at times with little advance notice, and you did this brilliantly.

As the school year draws to a close, please contact us if you require any assistance or support.

As always, we stand with you in solidarity of the vital role you play in the future of our society.
